RJ Platinum[®]-LE

MOTOR HELMET

The #1 Choice of Departments Nationwide.

SHOEI's number one status as the first choice of departments around the nation is embodied by the RJ Platinum-LE.

This helmet is the answer for the officer demanding the best. The RJ Platinum-LE is the top of the line in a lightweight, durable, 3/4-coverage helmet. Featuring Advanced Integrated Matrix Plus (AIM+), a hybrid combination of high performance organic and strong glass fibers. The result is a lightweight and sturdy shell.

FEATURES

- Adjustable top intake and rear exhaust vents allow for optimum airflow.
- A two-layer liner allows for optimum airflow, utilizing negative pressure to exhaust hot air buildup.
- Soft and comfortable 3D liner.
- Removable/washable interior.
- Communication system compatible.
- Padded chin strap.
- Custom paint available.

Neotec II[®] LE

MODULAR HELMET

The #1 modular helmet used by departments nationwide.

FEATURES

Aerodynamic Shell Design

- Aerodynamic properties are maximized through extensive wind tunnel testing.
- Four shell sizes and five EPS liners present increased fit options that help to comfortably fit most head sizes from XS through XXL.

Flip-Up Face Cover and Face Shield

- SHOEI's proven 360° Pivot Locking System, made of high quality stainless steel components, ensures a safe and secure closure.
- Enlarged single-button release for chin bar and shield allows ease of use with riding gloves.

Sun Shield Visor System

- Built-in QSV-1 sun shield gives riders instant relief from sun glare in one quick motion.
- Visor meets ANSI Z80.3-2010 standard for non-prescription eyeglasses.
- Distortion-free shield blocks 99% of harmful UV rays.

Ventilation System

- SHOEI's wind tunnels helped to reveal the optimal balance between airflow and silence.

Micro Ratchet Chin Strap

- Patent-pending 100% stainless steel interlocking mechanism.

Noise Reduction

- All-new "Noise Isolator" cheek pads deflect wind and reduce unwanted noise.

3D Interior Liner System

- The entire interior liner (cheek pads, center pads, and chin strap covers) is easily removed for cleaning or replacement.
- Comfortable, 3D helmet liner material quickly dissipates moisture.
- Eyeglass compatible interior is optimized for many different sizes of eyeglasses, while still minimizing gaps that can cause excess interior noise.

CNS-3 Shield

- 3D injection-molding ensures distortion-free view throughout the entire field of vision.
- New airtight window beading drains and prevents water from entering the helmet.

SENA[®] SRL (SHOEI RIDER LINK) COMMUNICATION SYSTEM

AMP UP YOUR RIDE WITH CUSTOM COMMUNICATION RECOMMENDED BY SHOEI EXCLUSIVELY FOR THE NEOTEC II

**CREATED EXCLUSIVELY TO INTEGRATE
WITH THE SHOEI NEOTEC II**

Optimal Integration

Designed jointly by Sena and SHOEI, the SHOEI Rider Link (SRL) is a sleek and low profile communication system tailored specifically to the SHOEI NEOTEC II, the upgraded version of the wildly popular NEOTEC modular helmet. The SRL is virtually undetectable from the outside of the helmet, and functions with a simple 3-button control, or via a Sena smartphone app.

COMMUNICATION IS OUR BUSINESS

Connectivity Simplified

A dual Bluetooth chip allows for up to 8 intercom connections as well as simultaneously listen to music and talking to other riders via intercom using Audio Multitasking. When audio comes through the intercom, music will automatically decrease in volume and return to a normal volume when riders stop talking over the intercom. Simply pair the SRL with your smartphone to stream music, listen to GPS directions, and take and make phone calls.

THE SRL DOES IT ALL

A Feature Set to Keep You Moving In the Right Direction

Take your ride up a notch with the stellar feature set of the SRL. In addition to the Universal and Group Intercom features, the SRL offers music sharing and Sena's Advanced Noise Control technology. Smart volume regulates the volume of your music when the environment outside of your helmet changes due to wind noise or increased speed. Built-in FM radio lets riders easily scan through and save up to ten radio stations.

CONNECTIVITY MAKES FOR VERSATILE CAPABILITIES

Stay Connected and In Control With the Sena Smartphone App

Linking the SRL with the Sena Smartphone App (for iPhone and Android) allows you to configure device settings and access our quick guide at the click of a button. The SRL can also easily connect to the Sena Ride Connected App to intercom with a virtually limitless amount of riders over an infinite range, so long as you are connected to a mobile network.

J-Cruise® LE

OPEN-FACE HELMET

SHOEI's J-Cruise is the premium open-face helmet for today's motor officer. State-of-the-art, high tech protection combines with open-air freedom for a safe and exhilarating riding experience.

FEATURES

- Lightweight, AIM (Advanced Integrated Matrix) shell.
- A multi-piece EPS liner allows for smooth passage of air, improving cooling performance.
- Easily removable shield secured by the shield stopper to prevent unexpected opening at speed.
- 3D Max-Dry removable, washable interior liner.
- **Sun Shield Visor System**
- Built-in QSV-1 sun shield gives riders instant relief from sun glare in one quick motion.
- Visor meets ANSI Z80.3-2010 standard for non-prescription eyeglasses.
- Distortion-free shield blocks 99% of harmful UV rays.

CJ-2 Face Shield System

- QR-N base plate allows tool-less shield removal and eliminates side covers for a flush, quiet fit.
- Wide, three dimensionally curved shield offers increased peripheral vision and optical clarity.
- Contoured air dam along the bottom edge helps prevent wind from blowing up under the shield.
- Scratch-resistant coating.
- 99% protection from harmful UV A & B rays.
- Shield Pinlock® EVO-ready.

HORNET X2®

ADVENTURE HELMET

The SHOEI Hornet X2® helmet is ideal for on-road and off-road patrol. The Hornet X-2® is a true all-road, any condition helmet.

FEATURES

Multi-Ply Matrix AIM+ Shell Construction

- Smaller, lighter yet stronger shell design; compact and aerodynamic.
- Four shell sizes ensure a custom fit.
- Dual layer multi-density EPS liner accommodates a more compact design without compromising ventilation.

CNS-2 Shield System

- All-new CNS-2 3D injection-molded shield offers a distortion-free view.
- Innovative ribs on the top edge of the shield improve rigidity when opening and closing.
- QR-N base plate system offers quick and efficient shield removal without having to remove the visor.
- Improved shield locking system.
- Pinlock® EVO shield and lens included.

3D Max-Dry System II Interior

- Center pad components are three-dimensionally shaped to match contours of the rider's head, allowing a comfortable fit while maintaining a firm hold for high speed riding.
- 3D-shaped cheek pads available in multiple thicknesses for a custom fit.
- Max-Dry System II liner material quickly absorbs and dissipates sweat and moisture.
- E.Q.R.S. (Emergency Quick-Release System) allows emergency personnel to easily remove cheek pads from an injured rider's helmet.
- Removable ear pads.
- Breath guard and chin curtain included.

V-460 Visor

- All-new V-460 visor is the result of many hours in SHOEI's wind tunnel, featuring an innovative wedge shape with strategically placed vent louvers which allow wind to pass through unobstructed at high speed.

Ventilation

- A large, multi-position lower air intake/defroster.
- Two shutter-controlled upper air vents.
- Four uniquely-positioned rear exhaust outlets.
- Three neck outlet vents.

VFX-EVO®

OFF-ROAD PATROL HELMET

FEATURES

Multi-Ply Advanced Integrated Matrix Plus (AIM+) Shell

- Proprietary technology integrates a six-ply matrix.
- Hand-laid interwoven layers of fiberglass and lightweight organic and high-performance fibers.
- SHOEI's strongest, lightest, most elastic shell provides optimal impact absorption.

Ventilation Performance

- Boasting sixteen intake and exhaust vents in total.
- Wind tunnel-tested for optimal vent port shapes, sizes, and locations.
- Improved negative air pressure suction for enhanced cool-air intake and hot-air expulsion.
- Cooling air channels in the dual-layer EPS liner further enhance airflow.
- Optimized to excel in the demanding confines of off-road environments.

3D Max-Dry Interior System

- Fully removable, washable, replaceable, and adjustable.
- Max-Dry liner material absorbs and dissipates sweat two times faster than traditional nylon interiors.
- Soft yet durable lower cheek pad fabric for a plush fit and feel.
- Multi-layer cheek pads for maximum comfort and superior helmet stabilization.
- Three-dimensionally shaped to match the contours of a rider's head.

Motion Energy Distribution System (M.E.D.S.)

- Proprietary, SHOEI-exclusive rotational energy absorption technology.
- Anchored by a rotational larger center column inner layer that swings during impact.
- Strategically-designed perimeter columns absorb rotational energy.
- Significant reduction of rotational forces to the rider's head.
- Preserves the lightweight, impact-absorbing characteristics of SHOEI's traditional EPS liner systems.

Dual-Layer / Multi-Density EPS Liner

- Provides enhanced impact absorption by utilizing varying densities of foam.
- Allows cooling air to travel unrestricted through tunnels created by the EPS.
- Precise placement of multi-density EPS material yields a more compact layer design.
- M.E.D.S. technology helps absorb and reduce rotational energy.
- High-quality EPS liner material throughout the entire chin bar for enhanced impact absorption.

V-470 Visor

- Specially designed for a seamless connection with the shell.
- New flange mechanism easily finds home position and prevents unexpected movement.
- High-grade polycarbonate screws are capable of shearing off on impact to help prevent forces to the rider's head.

Emergency Quick Release System (E.Q.R.S.)

- Allows emergency medical personnel to easily and safely remove the cheek pads from an injured rider's helmet.
- Helmet can be gently removed from the rider's head with minimal load placed on his/her neck.

RPHA 90

MODULAR HELMET

Advanced P.I.M. Plus (Premium Integrated Matrix) Fiberglass

- Shell structure has been reinforced with increased percentage of carbon fiber.
- Reinforced materials include Carbon and Carbon-Glass Hybrid fabric, which provides enhanced shock-resistant performance and reduced helmet weight.
- Four EPS liner sizes.

Flip-Up Chin Bar and Face Shield

- Innovative center one touch open/close locking system designed to be opened with either hand.
- Flip-up chin bar makes communicating with helmet on easier, and wearing glasses more comfortable.

Chin Strap System

- Double D-Ring chin strap with chin strap snap retention system.

Sun Visor With Wider Vision

- Better peripheral vision helps to reduce eye strain and block sunlight.
- Anti-fog and anti-scratch.

MultiCool™ Interior

- Advanced anti-bacterial fabric provides more enhanced moisture-wicking and quick-drying than previous generation.
- Removable/washable crown and cheek pads.

Rapidfire™III Shield Replacement System

- Simple and secure shield ratchet system provides ultra-quick, tool less removal and installation for efficient operation.

Pinlock® Prepared HJ-29 Shield

- Optically superior Pinlock® prepared 2D face shield provides 95% UV protection.
- Innovative center one-touch open/close locking system is designed for an extremely secure seal.
- Pinlock® fog-resistant system included.

HJ-V7 SunShield Visor System

- One-touch integrated standard smoke SunShield deploys and retracts quickly and easily.
- Three positions for adjustable SunShield lever.

Low-Noise Interior

- 3D engineered, ergonomic interior is developed to reduce noise significantly.

IS-MAX 2

MODULAR HELMET

Advanced Polycarbonate Composite Shell

- Aerodynamic shell with large eyeport for greater visibility.
- Adjustable polycarbonate chin bar.
- Lightweight, superior fit, and comfort using advanced CAD technology.

Flip-Up Chin Bar and Face Shield

- Single-Button chin bar/face shield release: open with one hand, even with gloves on.
- Flip-up chin bar makes communicating with your helmet on easier, and wearing glasses more comfortable.
- Optically superior HJ-17 face shield: 95% UV protection.

QuickSlide™ Shield Replacement System

- Quick, secure toolless removal and installation.

"ACS" Advanced Channeling Ventilation System

- Full front to back airflow flushes heat and humidity up and out.
- Multi-stage intake vents combine with rear exit vents to provide flow-through ventilation.
- Chin bar intake vent provides airflow across the shield interior to help eliminate shield fogging.

SuperCool® Removable/Washable Interior Lining

- Anti-bacterial, removable, and washable moisture-wicking interior.
- Glasses groove can accommodate riders who wear glasses.

SunShield Visor System

- One-touch, integrated anti-scratch smoke HJ-V5 SunShield: 3-stage adjustable SunShield deploys quickly and easily.
- Adjustable to three positions.

Nylon Strap-Retention Band

- Double D-ring chin strap.
- Chin curtain and breath guard sold separately.

Interphone Tour is the flagship product in the Interphone line from Cellularline®. Quality engineering and an elegant design are the hallmarks of this intercom, which is distinguished by a matte grey shell. Interphone Tour can link up to four motorcyclists communicating over a distance of nearly a mile. Compatible with all smartphones equipped with Bluetooth® technology, it lets you receive and place phone calls, listen to music, and follow navigation instructions along your route. It's the perfect intercom for riders who want long battery life in a full-featured Bluetooth® communication system. Very easy to install and completely waterproof, Interphone Tour combines advanced technology, fine design, and simple operation.

Compatible with all types of helmets and **easy to install.**

Allows **up to four** riders to communicate at a maximum distance of **approx. 1 mile.**

Long battery life of **over 20 hours** with Fast Charge Technology.

Powerbank battery included to recharge the Interphone unit and your smartphone while traveling.

Interphone Sport is the intercom dedicated to those who love to stay connected while riding.

Thanks to the Bluetooth® connection with your smartphone, it lets you listen to music in high quality hi-fi, receive navigation instructions, share music with a passenger, and listen to your favorite radio stations.

Combining technology and connectivity, Interphone Sport is the ideal traveling companion for people who love to share the excitement of the ride with friends.

Interphone Sport is equipped with advanced functions that enable it to connect with any Bluetooth® intercom on the market. It can be activated by voice command (VOX), and automatically reconnects if the connection with the other riders is lost.

With Interphone Sport, receiving and placing long calls will be less of a problem, thanks to its great battery life.

*It is compatible with all types of helmets and **easy to install**.*

*It allows **up to four** riders to communicate.*

*It allows you to **listen** to and share hi-fi quality **music** with your passenger, receive navigation instructions, and listen to your favorite radio stations.*

*It allows you to receive and place as **many calls** as you like thanks to the long-lasting battery.*

cellularline INTERPHONE URBAN

Interphone Urban is the intercom for city use that's dynamic, reliable, and compatible with all types of helmets on the market. With Interphone Urban, you can receive calls during your commute between work and home and follow instructions from a Bluetooth® navigator to reach your destination safely and securely.

Interphone Urban is also great for people who love to travel beyond city limits with their partners, because it provides the easy rider-passenger communication that is essential for experiencing the excitement of the trip together.

Thanks to its long battery life, traveling by motorcycle will never be the same.

Interphone Urban is equipped with Bluetooth® connectivity for music and GPS navigation, as well as with FM radio. The easy-to-operate intercom provides a full set of functions and operates perfectly in any weather. Available in black with white keys and trim.

*It is compatible with all types of helmets and is **easy to install**.*

*It is **easy to use**, but packed with functions.*

*It has built-in **FM radio** and Bluetooth® connectivity for **music** and GPS navigation.*

General Features

- Talk time: up to 4 hours
- Standby: 12 hours
- Charging time: 2 hours

Intercom Mode

- Rider-to-passenger

Intercom Range

- Up to 32 feet

Mobile Phone

- Voice call (depending on mobile phone model)
- Last number redial

GPS

- Compatible with most major Bluetooth® navigation devices for motorcycles
- GPS voice instructions
- Compatible with most major smartphone navigation apps

MP3/Music

- Wireless MP3 music (A2DP/AVRCP) through Smartphone and MP3 player

Firmware Update

- Firmware update-ready directly from PC (Windows) and Mac

Waterproofing

- Water resistant

Audio

- Directional windproof microphone
- Noise Dependant Volume Control

Enhance your movements around the city with the Interphone Start, which includes a stereo headset for crisp sound, Bluetooth® connection to smartphones, and GPS navigation for added security, with an incredibly slim and elegant design.

The Interphone Start offers compact dimensions and unprecedented functions. This particular design makes it easy to use, while ensuring maximum water resistance, even in adverse weather conditions.

Simplified installation is made possible with the help of adhesive for fastening to helmets, boom microphone, and no wires between the control unit, microphone, and headsets. It is equipped to receive software updates that ensure maximum compatibility with other devices and a long, operational life.

Chipset/Battery/Charger

- Bluetooth® version 3.0
- USB connector charging cable (MICRO USB)
- Micro USB connector for charging and data

Package Contents

- 1 Bluetooth® unit
 - 1 boom microphone
 - 2 1.5" diameter stereo speakers (0.30" thickness)
 - 1 slim controller pad
- 1 adhesive Velcro for controller pad
- 2 adhesive Velcro for earphones
- 1 micro USB charging cable

Dimensions

- Weight: 0.10 lbs / 46 grams

PINLOCK®

Earplugs

ULTIMATE HEARING PROTECTION

MSRP
\$19.99

Hearing protection from Pinlock® offers many advantages over conventional hearing protection. The integrated precision filter brings the wind down to a safer sound level while riding, yet allows normal conversation without filtering important traffic sounds. Each set includes two sizes of plugs to offer almost every rider a custom, all day comfortable fit.

- Made from silicone free medical grade TPE.
- Noise reduction rate up to 24 dB.
- Can be used in combination with an intercom system.
- Comfortable filters allow airflow into ears, minimizing irritation and avoiding a blocked feeling of the ears.
- Includes two sizes to ensure a perfect fit.
- Precision filter technology maintains spatial awareness.
- Filters wind and motorcycle noise down to a safe level while still allowing for conversation and important traffic sounds.
- Filters are replaceable and upgradable for use in custom fit ear molds.
- Reusable, fully washable tips and filters.

Tourmaster® Sentinel-LE Rainsuit

JACKET & PANT

**When It Rains,
We've Got Your Back.**

Jacket Features

- Waterproof and breathable ripstop nylon shell with sealed seams is rated MVM 5000 for maximum breathability.
- Features an Aqua-Barrier™ under-the-helmet hood to help eliminate seepage in the collar area. U.S. Patent #8,156,573 and #7,779,485
- Chest pockets feature waterproof zippers, Tourmaster Scoop Vent System, and a mesh backing so they can be opened for ventilation when needed.
- Three large waterproof bellows pockets maximize carrying capacity.
- Waterproof zippered underarm exhaust vents allow warm air to exit from the jacket interior.
- 3M™ Scotchlite® reflective piping, Hi-Viz includes reflective rear and shoulder triangles and full circumference reflective striping, which helps to increase nighttime visibility.
- Waterproof zippered sides to access duty belt.
- Sized to be worn over uniform; badge holder included.
- Shock cord waist adjustment seals the waist and provides a tailored fit.
- Full wind flap and hook and loop main closure keeps moisture sealed out.
- Elastic cuff with hook and loop closure helps eliminate water encroachment into the sleeve.
- Self-contained storage pouch allows the jacket to stuff into itself for convenient storage.
